

NEW YORK PLASTIC SURGERY

Robert A. Guida M.D., F.A.C.S.

Internet Consent Form

Dr. Robert Guida of New York Plastic Surgery agrees to provide treatment to: _____.
The Physician takes pride in being able to extend a greater degree of privacy than is required by law.

Federal and State privacy laws are complex. Unfortunately, some medical offices try to find loopholes around these laws. For example, physicians are forbidden by law from receiving money for selling lists of patients or medical information to companies to market their products or services directly to patients without authorization. Some medical practices, though, can lawfully circumvent this limitation by having a third party perform the marketing. While personal data is never technically in the possession of the company selling its products or services, the patient can still be targeted with unwanted marketing information. Physician believes this is improper and may not be in the patients' best interest. Accordingly, Physician agrees not to provide medical information for the purpose of marketing directly to Patient. Regardless of legal privacy loopholes, Physician will never attempt to leverage its relationship with Patient by seeking Patient's consent for marketing products for others.

We want your feedback. If our office gets it right, tell us. If we could do something better, tell us. We take quality improvement seriously. While there are scores of "rating sites" in cyberspace, many fail to provide useful information. Let's get it done right. We can make recommendations as to which sites follow minimum standards for fairness and balance. Just ask us.

Physician has invested significant financial and marketing resources in developing the practice. Nothing in this Agreement prevents a patient from posting commentary about the Physician - his practice, expertise, and/or treatment - on web pages, blogs, and/or mass correspondence. In consideration for treatment and the above noted patient protection, if Patient prepares such commentary for publication on web pages, blogs, and/or mass correspondence about Physician, the Patient exclusively assigns all Intellectual Property rights, including copyrights, to Physician for any written, pictorial, and/or electronic commentary. This assignment shall be operative and effective at the time of creation (prior to publication) of the commentary.

This Agreement shall be in force and enforceable for a period of five years from Physician's last date of service to Patient. As a matter of office policy, Physician is requiring all patients in its practice sign the Mutual Agreement so as to establish that any anonymous or pseudonymous publishing or airing of commentary will be covered by this agreement for all Physician's patients. Further, this Agreement will survive for a minimum of three years beyond any termination of the Physician-Patient relationship.

Patient and Physician acknowledge that breach of this Agreement may result in serious, irreparable harm. Patient and Physician agree to the right of equitable relief (including but not limited to injunctive relief). Should a breach of this Agreement result in litigation, the prevailing party in the litigation shall be entitled to reasonable costs, expenses, and attorney fees associated with the litigation.
